5/3/01

Dear Professor Dershowitz —

Five years have passed since I sent you the enclosed March 20, 1996 letter. The same problem that existed then, exists now. We can't find any lawyers to champion the public's rights against a corrupted State Commission on Judicial Conduct.

Enclosed are the appellate papers in a current lawsuit against the NYS Commission on Judicial Conduct. All the work is done. What's needed is your help in garnering organizational support + media attention. This is absolutely essential to safeguarding the integrity of the appellate process — since otherwise this case will be "thrown" by a fraudulent judicial decision — as it is the only way the Commission can survive.

Please help — or, at least, help us find lawyers' voices in the legal-public interest community that can help.

many thanks —

Elena Sassower, Coord. CJA Inc
