RE: Being True to Rhetoric about Citizenship & Democratic
Participation

As discussed, attached is my June 16th memo, which Mr. Morrison stated he read – but for which he told me I could expect "NOTHING" from Public Citizen: no legal assistance, no referral, and no help in getting press attention.

Mr. Morrison pretended he did not know if it was "true" that I was arrested for simply requesting to testify at the Senate Judiciary Committee's public hearing. Aside from the fact that Mr. Morrison well knows from his past contacts with me and my workproduct that what I say is true, the "truth" about my arrest is evidenced from the documents posted on the homepage of www.judgewatch.org. – to which the memo expressly refers. Mr. Morrison was not ashamed to tell me he had not read a single one of these homepage documents – and he expressed not the slightest recognition that if he were to busy to read them himself, his obligation was to delegate the task to someone else before announcing that I could expect "NOTHING" from Public Citizen.

Please let me hear from you as to how Public Citizen will be responsibly addressing the June 16th memo – such as was not done by the insolent and abusive Mr. Morrison. Meantime, the memo will be posted on the homepage of www.judgewatch.org.

Thank you.
