Subject: RE: your idiotic email

You referenced A7997 -- did you actually read it before criticizing it? If you had taken the time you would have realized we are trying to gut the Commission and remove its powers to increase salaries --

" The purpose of this legislation is eliminate the provisions in the 2015 budget that stated that the salary determinations of the special commission on compensation could become effective automatically "with the force of law," and could "supersede" any inconsistent provisions of the Judiciary Law, Executive Law, and Legislative Law, without any further legislative action. "
