Dear Ms Maxfield Kearse:

I am writing to file a formal complaint about the misconduct of Dawn J. Post Esq, a Kings County attorney. I request that you investigate and prosecute the professional misconduct documented in the attached affidavit, and the exhibits attached.

Ms Post acted as my four-year-old daughter's 'Attorney for the Child' from February 10, 2014 until her firm, the Children's Law Center, removed her from this position on January 5, 2015. Because Ms Post is no longer directly involved in the case, the Grievance Committee is now able to investigate these allegations.

The affidavit documents 18 counts of professional misconduct, and one count of criminal misconduct, by Ms Post including: improper testifying; the mis-statement of eight witnesses; perjury; complicity in illegal wiretapping; an undeclared conflict of interest with a party in the case; negligence in protecting my daughter's interests, safety and rights; harassment and cyber-stalking; and interference in my relationship with my daughter's school and psycho-therapy.

In full disclosure, I am not just a first-hand witness to these allegations. I am also a journalist and film-maker, investigating a story and documentary film on the entire profession of the 'attorney for the child' and what oversight and accountability there exists in New York on their conduct. I therefore offer my services to assist in your investigations into this matter. Given the thousands of children represented by organizations such as the CLC, I believe this a matter of enormous public concern.

I look forward to hearing from you.

Sincerely

SEBASTIAN DOGGART
