My darling sweet little Family.

I am shaking all over from excitement & happiness. God give you both and your daughter all the happiness in the world.

I am sure she is beautiful & adorable. How can she help it with such beautiful Mother and such handsome Father. *

Why did you do that to me? I wanted to be home in time. You &oris wrote (and I have black & white) that you expect ~~me~~ on the week of June 9th.

I hope you did not have to bad a time. Thank God it is over.

Please write all particulars right away. Al will forward the letters to me to the Queen Mary.

I can't change my plans any more. To day was the last day that I could cancel my passage. Did you misinform me about the time on purpose? Why?

I had come back from a cousins house I went to say goodby, and stopped talking to someone, when Al & Lilia came running down yelling Mazel Tov you a braudma. just imagine how I feel.

Please Children buy my brauddaughter for me the finest present you need for her.

She will be almost a month when I'll be home this is just not right.

Foris darling wife to me and please forgive me for not being home, it seems to be just beserk because I would have saved lots of unpleasantness if I'd come home earlier.

You remember my dears how I dreamt it was a girl? Well yesterday I was so nervous all day I can prove it with Al & Lilia. I cried a few times for no reason at all. I could not account for it at all. I just could not control myself. I believe that there is such thing as mental telepathy and I am very receptive.

There are so many things I want to know and for me to get the letter before the boat sails

you must write soon please.

How do you feel Louis? How does it feel to be a mother? And Father also? Do you nurse the baby? How does she look? Have you got a woman? This and a million other things.

I don't know what I have written I am all rumished

Please give a hearty Mazel Tov to your Parents. I am sure they are thrilled also to both our families

You my dear mother Father & Daughter
