WOULD GALILEO HAVE HAD TO LET A FRESH EGG FALL FROM THE TOWER OF PISA TO LEARN ITS FINAL CONDITION FROM SUCH FALL?

One simply does not have to be a Galileo to know the inevitable minimum consequences had Lady Rasputin been hit about "20 times", "violently", "with all his might", "on her head", "with a tire iron", by Dennis F. Vilella, as she testified!

Certainly it would not be negative X-Ray and Cat Scan hospital reports, the highest possible non-coma score, which District Attorney Denis Dillon's Office deliberately concealed.

The concealed hospital report further shows no treatment for any skull injuries, or even a traumatic bruise at the site of this alleged vicious assault.

When Tawana Brawley, a private citizen, fabricates the existence of crimes, Governor Cuomo and the media spend zillions of dollars investigating same.

When the "Dillon Gang", public officials on the public payroll, fabricates the existence of crimes, everyone, including the Governor and the media -- cover up!

The "Dillon Gang" concealed the hospital reports from the Grand Jury; corrupted the Trial Judge and effectively concealed such hospital report from the Petite Jury; induced Newsday not to reveal such evidence to its readers; and corrupted Vilella's appellate attorney and together concealed such hospital reports from the Appellate Division.

Thus at a cost to you, the taxpayer, of about \$50,000 per annum, Mr. Vilella has been incarcerated for the past 18 months, as part of a maximum term of 25 years, for crimes that neither he nor anyone else committed!

In this bicentennial year of the Bill of Rights, write and demand from Governor Cuomo a Grand Jury investigation, pursuant to Article 1, §6 of the N.Y. State Constitution.

You get the government you deserve, tell Governor Cuomo, "no Grand Jury inquiry", "no vote" -- from you, your friends, and those who believe in justice!
