

IAS -- HOW IT REALLY WORKS
(WITH THE RICCOBONO -- GAMMERMAN CONNECTION)

Before IAS it was relatively simple for Administrator XAVIER C. RICCOBONO to direct and control the judicial course of PUCCINI CLOTHES, LTD. -- the "judicial fortune cookie" -- an involuntarily dissolved corporation, whose assets and affairs became custodia legis on June 4, 1980 -- more than six (6) years ago -- without any accounting having ever been rendered, although the uncontroverted documented evidence reveals massive larceny of judicial trust assets!

KREINDLER & RELKIN, P.C.; FELTMAN, KARESH, MAJOR & FARBMAN, Esqs., and NACHAMIE, KIRSCHNER, LEVINE, SPIZZ & GOLDBERG, P.C., and/or their predecessor firms -- "the criminals with law degrees" -- had been engaged in such massive larceny of PUCCINI's judicial trust assets, and Administrator RICCOBONO and Mr. Justice IRA GAMMERMAN were and are intent in assuring that their criminal patrons keep their larcenous booty, and indeed, increase it!

After IAS, with its "non-waivable random selection process" at its heart, it was an open secret that Administrator RICCOBONO would manipulate the computer so that Judge IRA GAMMERMAN would be "randomly selected".

The computer chose Hon. MARTIN B. STECHER, but although His Honor had no grounds for disqualification, by pre-text his designation was cancelled. To "better the odds", Administrator RICCOBONO, designated the litigation as "protracted", although the proceeding would be ended almost immediately after a true accounting was filed, and now the computer selected Hon. MICHAEL J. DONTZIN, who never before asserted that he was disqualified. At some point thereafter, the computer then "randomly selected" Mr. Justice IRA GAMMERMAN!

The "criminals with law degrees" and their co-conspirator in the meantime had commenced eight (8) contempt proceedings against GEORGE SASSOWER, Esq., based on the same evidence and assertions -- constitutional and statutory "double [multiple] jeopardy" notwithstanding, all such proceedings had failed or were doomed to failure. Therefore, Mr. Justice GAMMERMAN, without notice, nor warning, fabricated and contrived a "phantom" contempt proceeding, and without a trial or hearing, sua sponte entered an order which "dragooned" all related cases to himself, from truly "randomly selected" jurists, even those in other counties, and even those where Mr. Justice IRA GAMMERMAN was a defendant, a respondent, or a co-conspiring essential witness!

For exposing or resisting the activities of the "criminals with law degrees", the criminal activities of the "trio of judicial fixers", which includes also Referee DONALD DIAMOND, one can find oneself convicted, sentenced, and incarcerated, without a trial in the "Riccobono fiefdom", the Constitution of the United States notwithstanding!

A proceeding to declare the aforementioned manipulations of the judicial computer, and similar practices by Administrator RICCOBONO and Mr. Justice GAMMERMAN, was stayed by Mr. Justice GAMMERMAN (Index No. 7527-1986)!
