Re: Sassower v. Appellate Div.
82 Civ. 4970
Motion - 11/5/82

Honorable Judge,

Returnable the same day is my motion in a related matter in the Appellate Division, Second Department wherein the Attorney General was supposed to serve the documents requested with his opposing papers by mail no later than October 28, 1982, or personally serve them no later than November 1, 1982.

Since I was reasonably certain that such documentation and affidavit(s) would be relevant on the instant motion, I delayed my opposing papers on the motion before Your Honor until receipt of them.

As of last evening, such mandated documents and optional opposing papers were not received. As a result thereof my opposing papers to Your Honor are two days late and I would appreciate acceptance of same.

I have also been beseiged by three voluminous motions made by three different Assistant Attorney Generals in related matters all returnable within an eight day period. Being a single practitioner this unexpected synchronized diluge has necessitated a herculean effort in my attempts to respond, which also contributed to the day delay in responding in accordance with the Rules of the Court.

In view of the ethical assertions that I have made, I believe that the Assistant Attorney General should be given a brief, but sufficient time to respond, and I respectfully make such request.

Most respectfully,

GEORGE SASSOWER
