Hi Elena—

We just spoke on the phone, and I am glad there are a variety of complaints from individuals. That is what I thought I recalled being the case from the ones you originally gave me, before I stupidly lost them. My concern it might be otherwise sprang from your advice that I look at the more recent documents and court filings from you, which you said contained several complaints, and I saw that almost all those referenced in your Aug. 17, 2001 complaint were from CJA or George Sassower.

See you tomorrow.

Larry
